

Year 2 Maths Toolkit Activities

Activity 3 - Measuring lengths

Activity Approach

- Whole class

Resources

- Paper strips (1 cm squares)
- Toothbrushes/pencils

Instructions

- Every pupil will measure the length of the toothbrush/pencil using the paper strips.
- The teacher draws a block graph on the whiteboard showing the lengths of the toothbrush/pencils.

Year 2 Maths Toolkit Activities

Activity 4 – Estimating and measuring length.

Activity Approach

- Whole class

Resources

- Shoe prints templates
- Paper strips (1 cm squares)

Instructions

- Give a shoe template and a paper strip to the pupils.
- The pupils measure their shoe template using the given paper strip.
- The pupils compare the length of the shoe prints.
- They find the difference in the number of squares used to measure the templates.
