

Do you know the average beats per minute of a human heart?

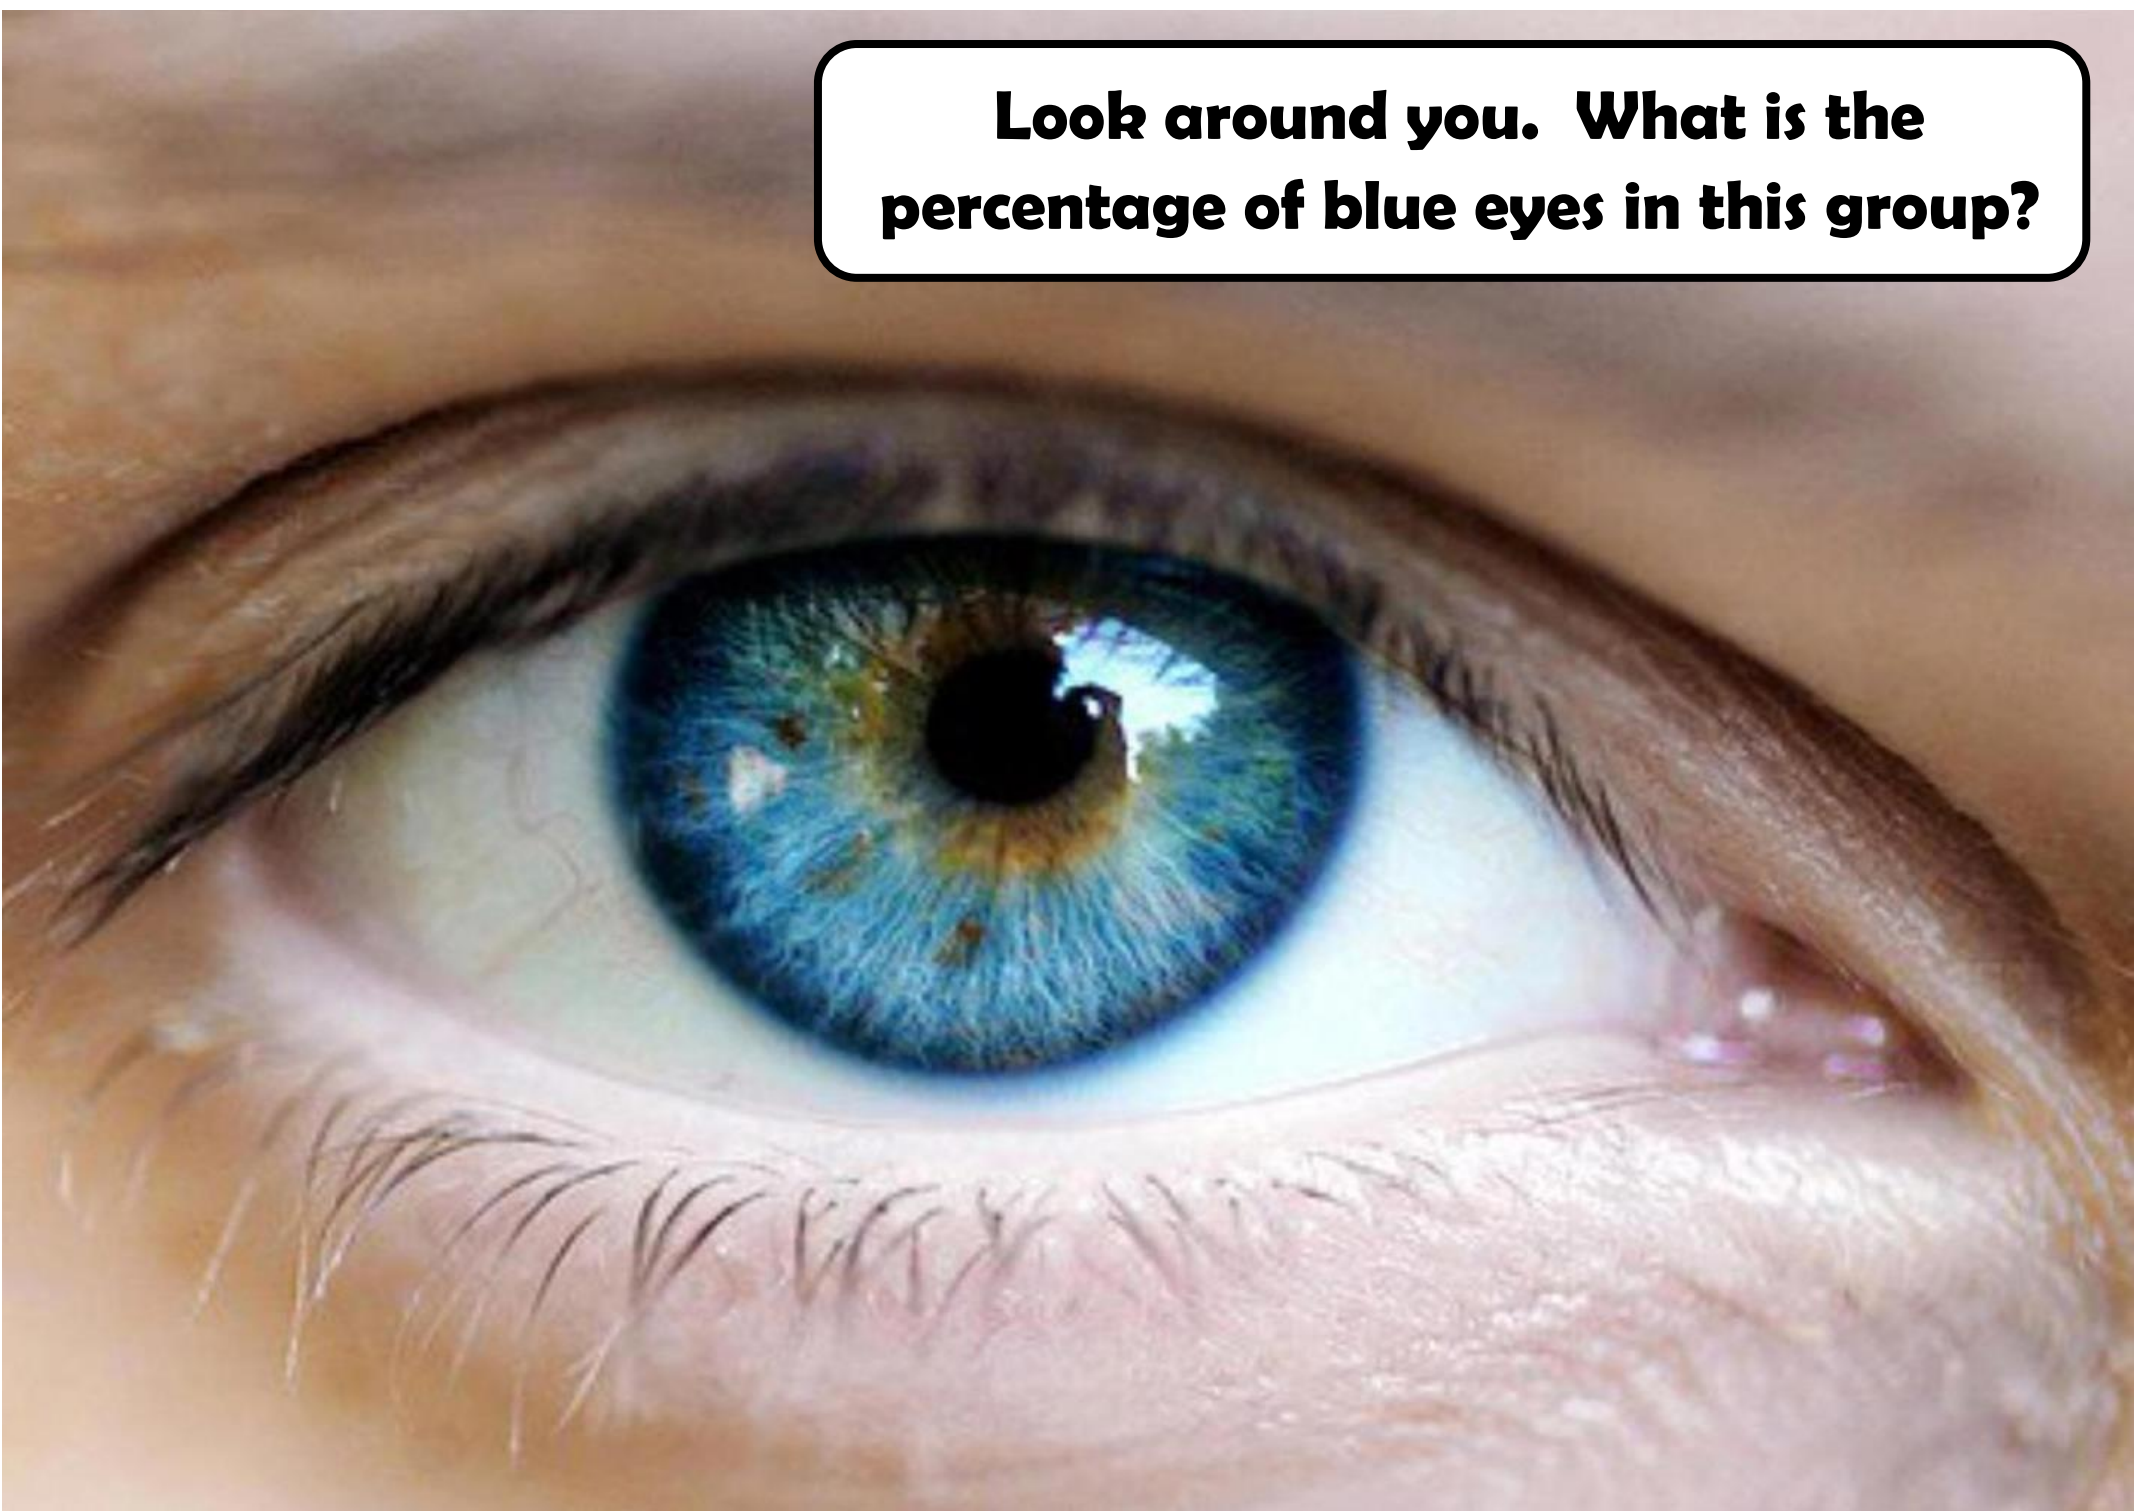

Do you know what is your maximum heart rate?

The Eiffel Tower is about the same height as a 95 storey building.

Estimate its height.

Look around you. What is the percentage of blue eyes in this group?

Arrivals

Approximately at what time was this picture taken?

A group of children are looking at a screen. The screen displays a question in a white rounded rectangle. The children's faces are partially visible, some looking directly at the camera and others looking towards the screen. The lighting is dim, with a blueish tint. A soccer ball is visible in the background on the right side.

**What is the sum of the angles in
a six-sided shape?**

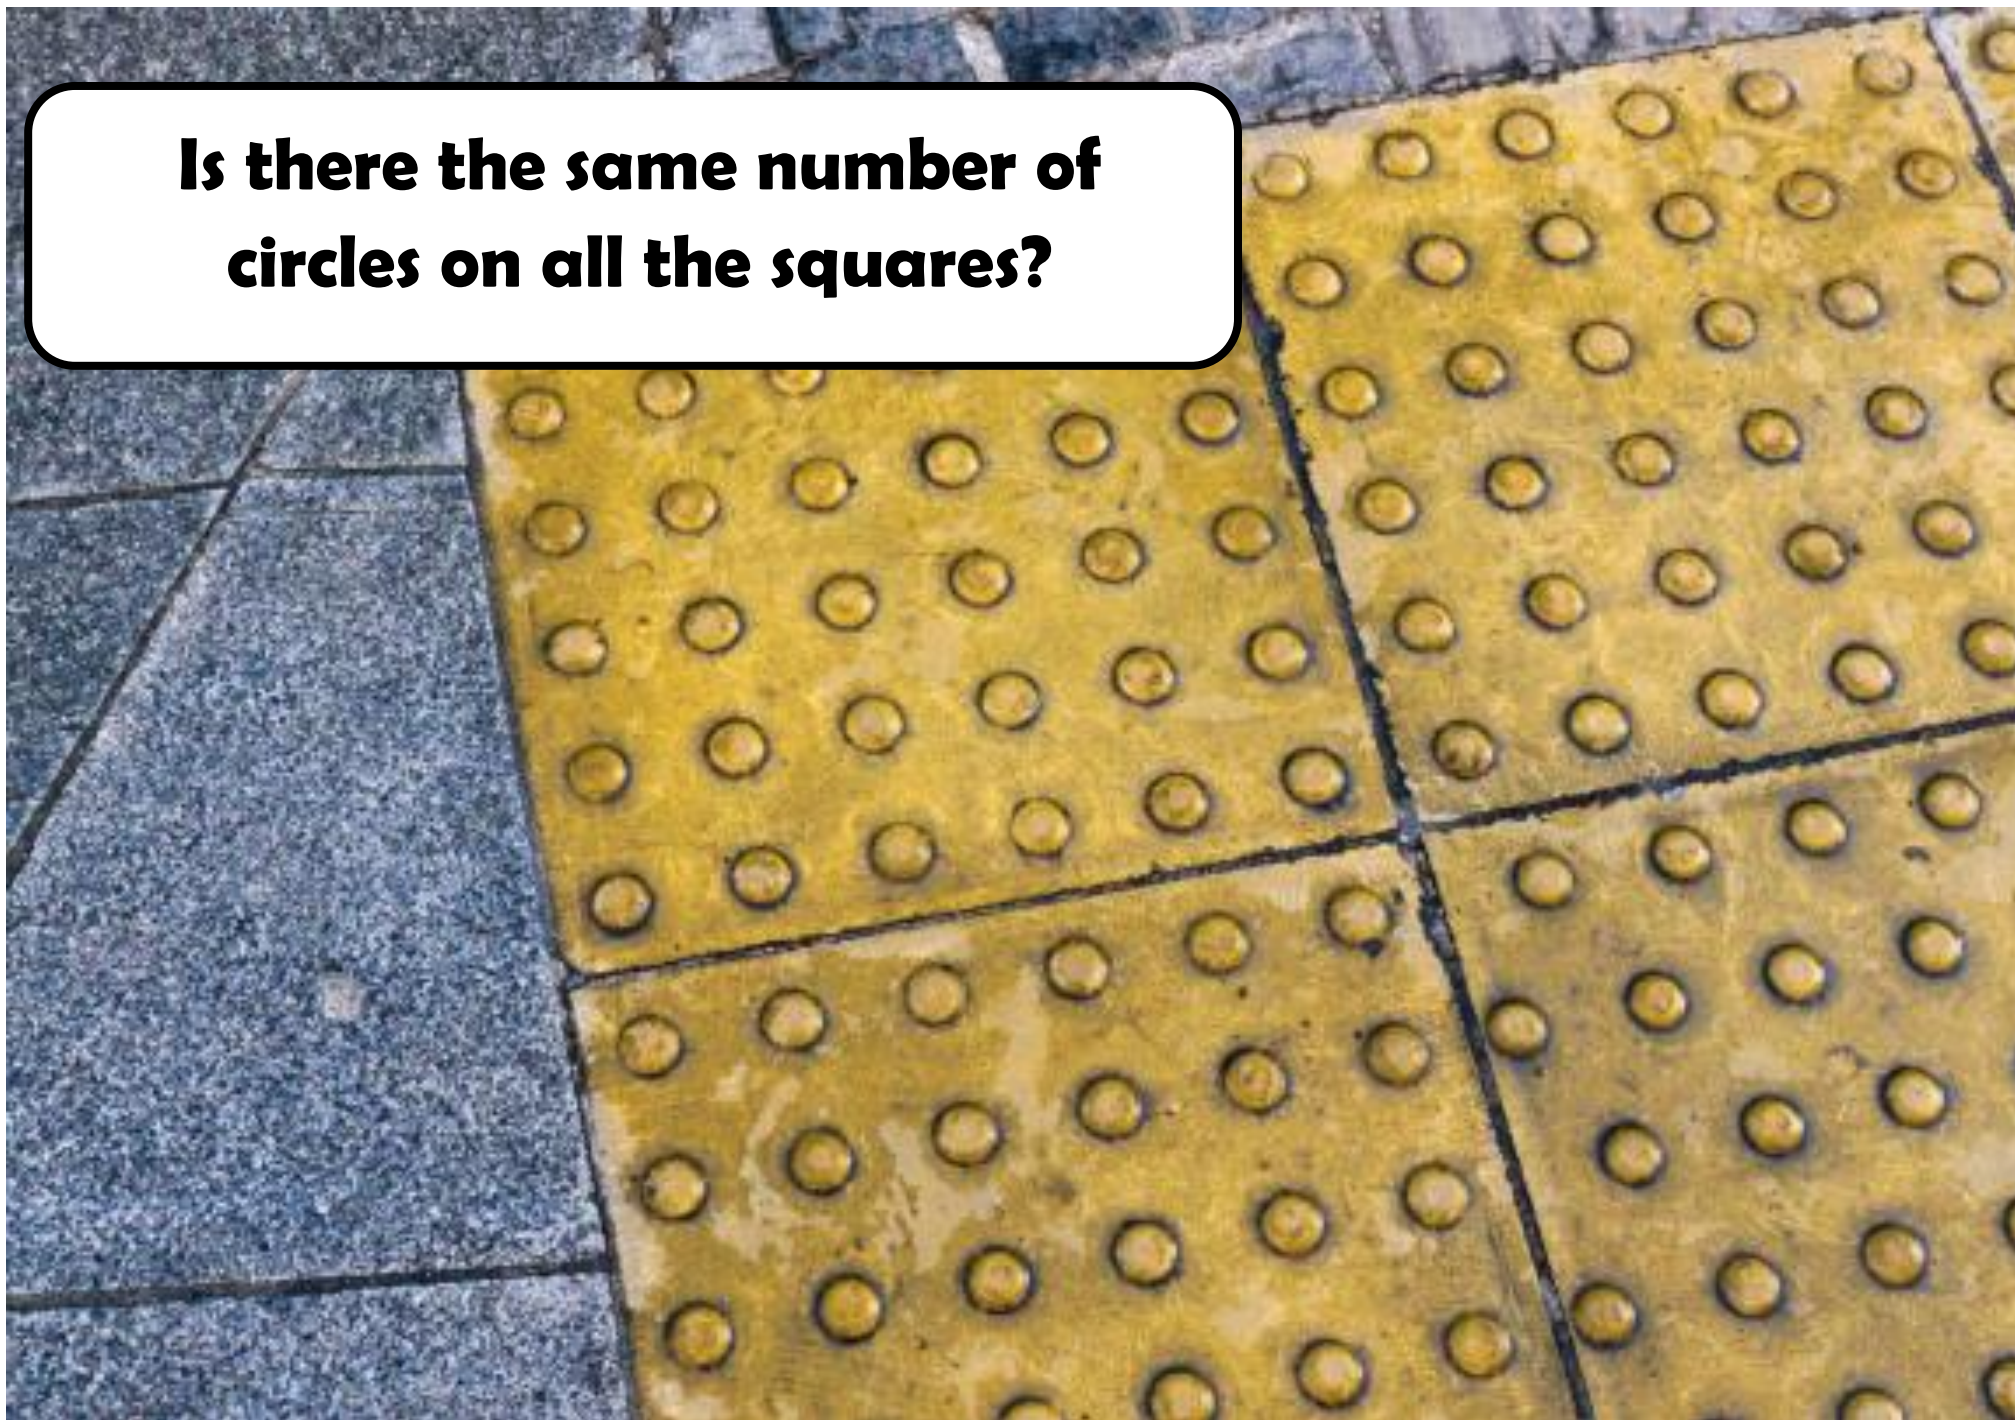

If you had to teach someone how to use a calculator, what would you tell them?

How many different types
of mathematical equipment
can you think of?

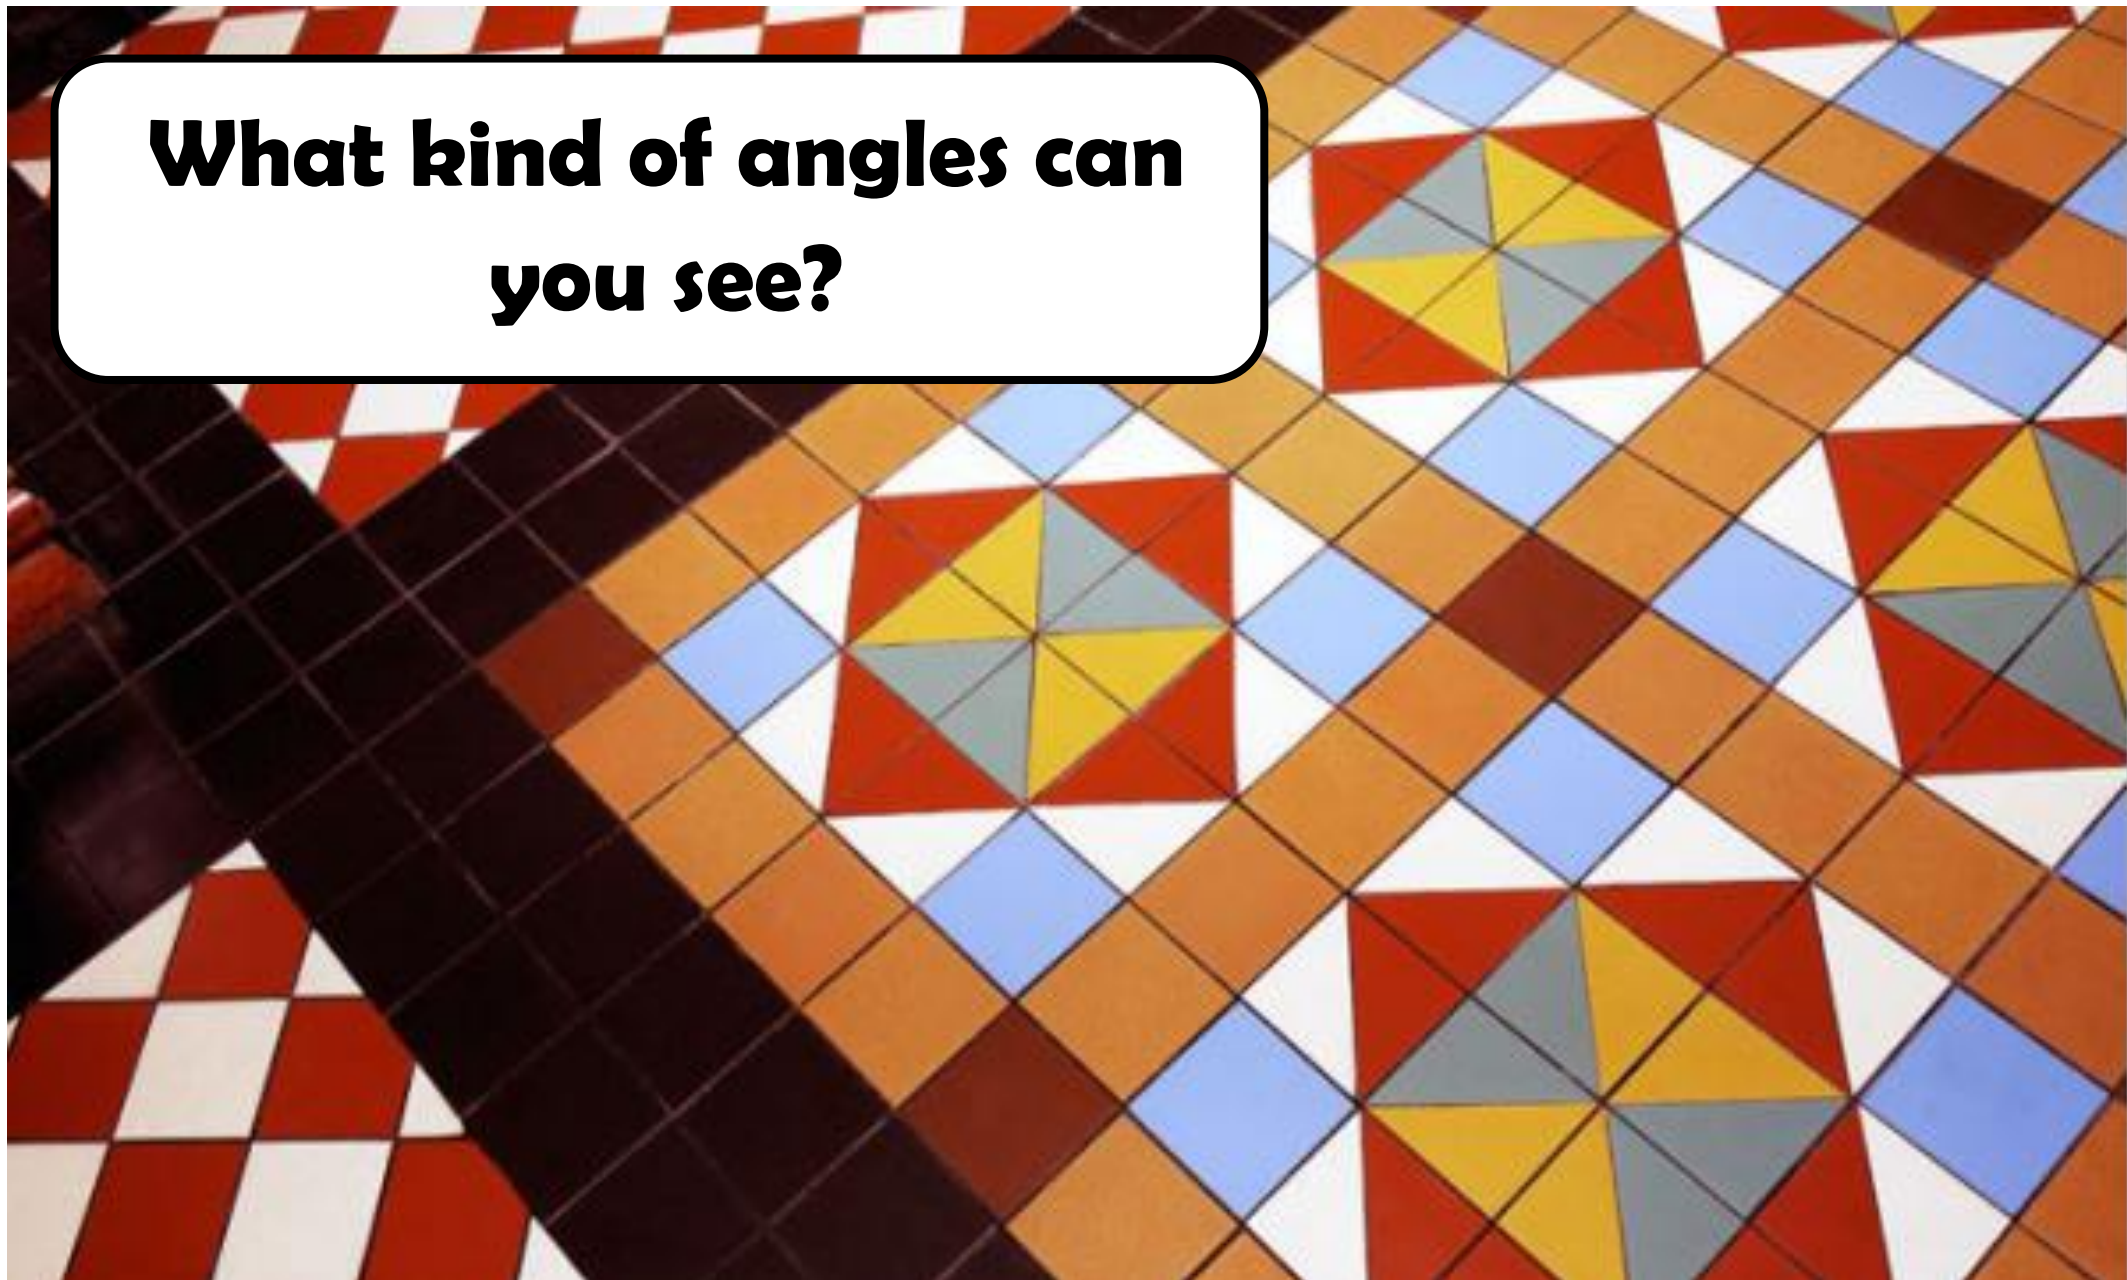

Is there the same number of circles on all the squares?

**What is the
most common
triangle?
Equilateral,
isosceles or
scalene**

**What kind of angles can
you see?**

Is bigger always better?
