

# Decimals – Activity Sheet

Use the table and the questions below. Suppose a football game for players over 17 years of age is divided into two sections. Would this game last for more or less than 1 hour?

Age Group	Length of Section
Under 12	0.25 hour
12 – 17	0.50 hour
Over 17	0.75 hour

- How long does a section of soccer last for the over-17 age group?
- How would you show 0.75 as a fraction?
- Would two sections of soccer for this age group last more or less than one hour?
- How do you know?
