

## Colours and Space

Arrange the eight coloured pieces (on pages 2, 3 & 4) on the grid below. Pieces of the same colour are not allowed to touch one another – not even at a corner. You may flip the pieces over or rotate them in any way.

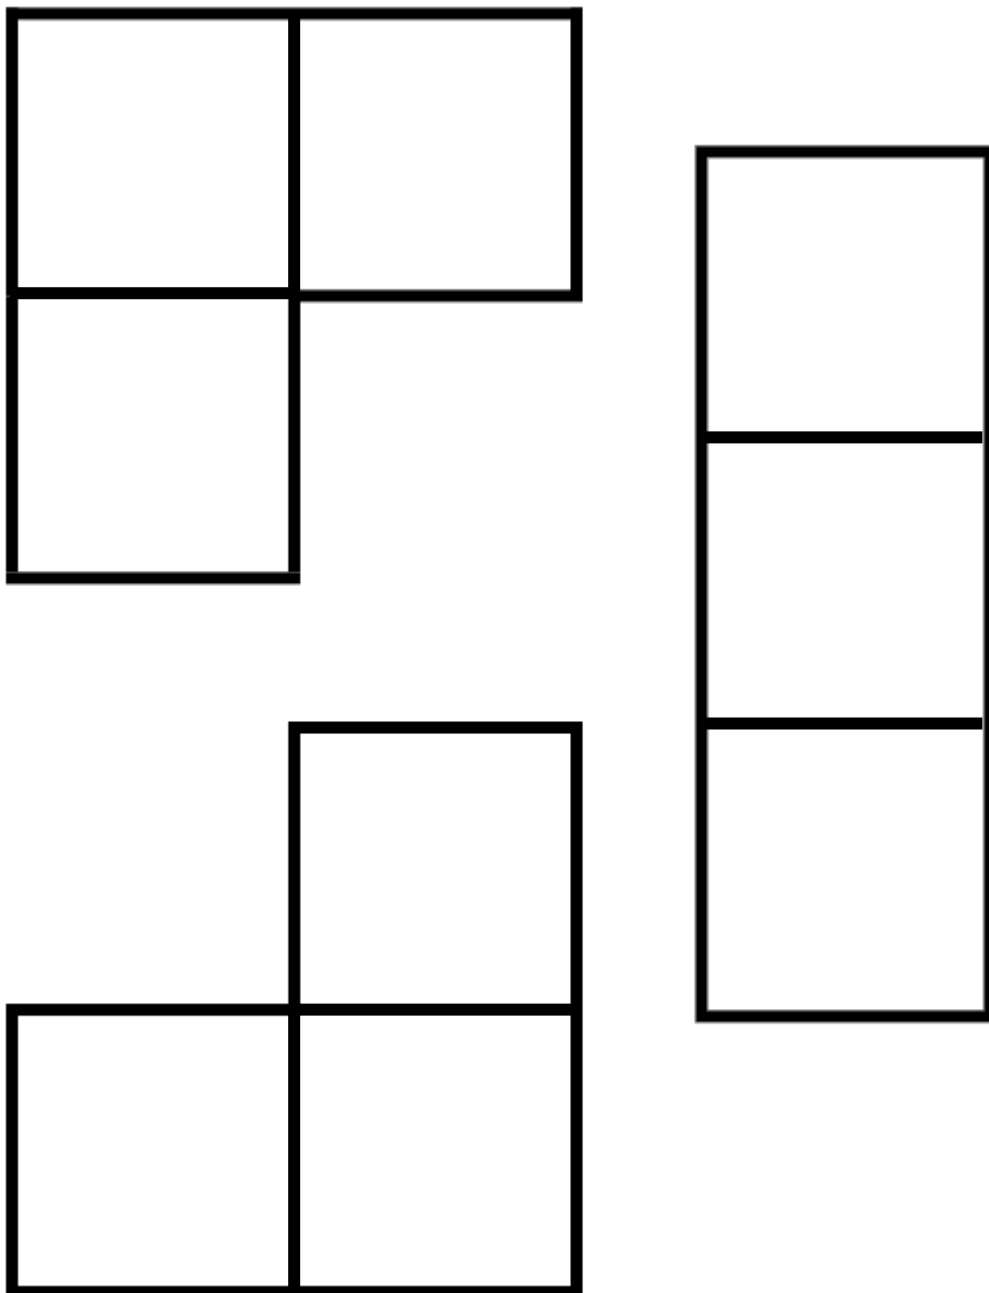

**Option 1:** Copy these pieces on a squared paper, colour them red and cut around each piece.

**Option 2:** Print this sheet, colour the two pieces red and then cut around each piece.

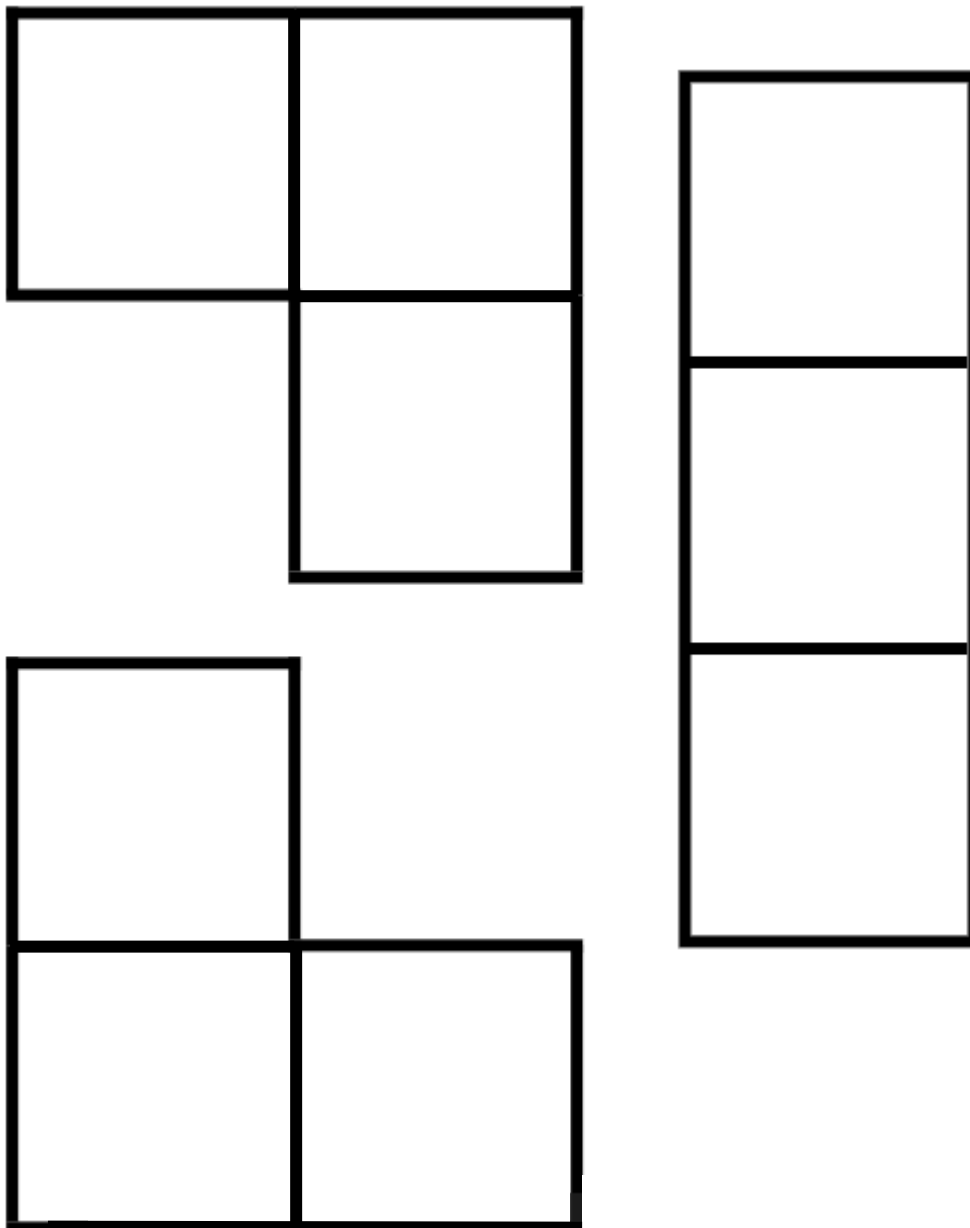

**Option 1:** Copy these pieces on a squared paper, colour them green and cut around each piece.

**Option 2:** Print this sheet, colour the pieces green and then cut around each piece.

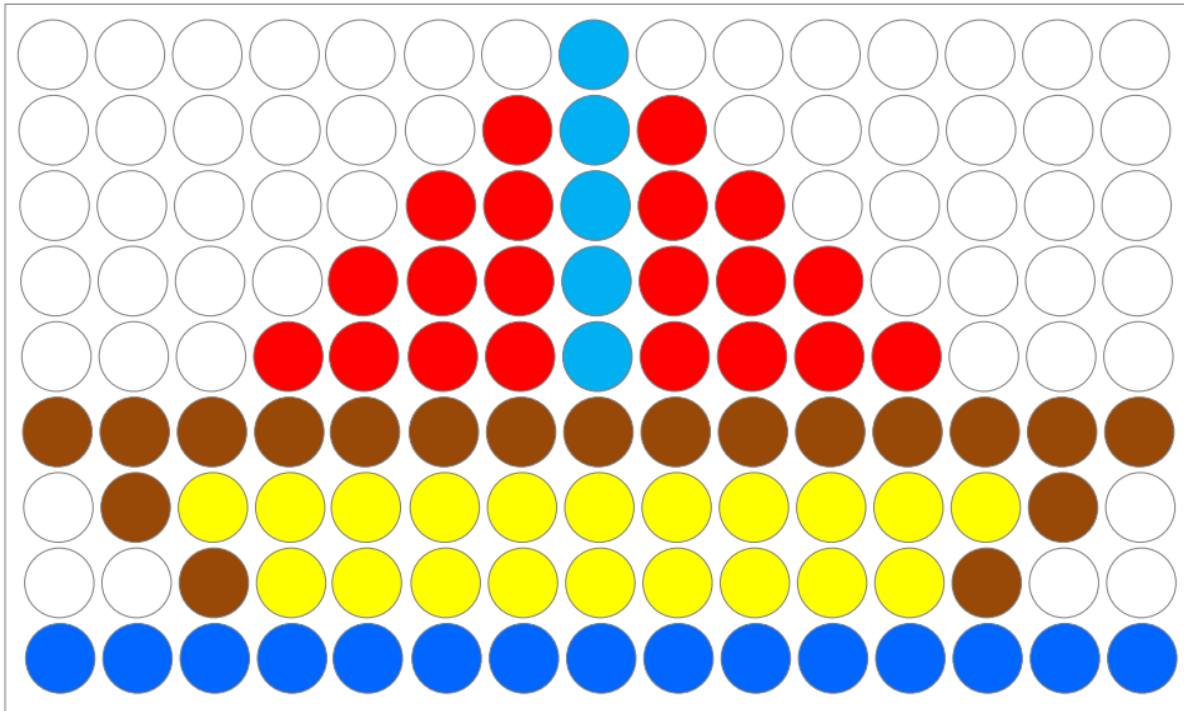

**Option 1:** Copy these pieces on a squared paper, colour them yellow and cut around each piece.

**Option 2:** Print this sheet, colour the pieces yellow and then cut around each piece.

Mark the line of symmetry of the picture below:

Use the space below to create your own symmetrical shape with coloured circles.
