

Elsa wants to find out from whom she got a magic power.

First she has some work to do.

The use of concrete objects (such as bottle caps, pompoms, popsicle sticks etc) may be used throughout.

1. a) Fill in with the words below.

right

left

between

below

- i. Sven is below Olaf.
- ii. Sven is between Anna and Kristoff.
- iii. Kristoff is to the right of Sven.
- iv. Anna is to the left of Sven.

b) Create your own

Ex. Elsa is to the left of Hans.

2. Continue.

You may use
the number
line to work it.

3. Work.

$$\boxed{12} + \boxed{7} = \boxed{19}$$

$$\boxed{12} - \boxed{7} = \boxed{5}$$

$$\boxed{14} + \boxed{9} = \boxed{23}$$

$$\boxed{21} - \boxed{11} = \boxed{10}$$

You may use
the number
line to work it.

4. Cut the below or use number cards.

a) Choose pairs to make 20.

b) Fill in the empty boxes with a different pair of 20.

5. Elsa got her magic power from her _____.

- Start with number 30.
- Count **backwards** in 3s to form a pattern in the empty boxes below.
- The word that you form from the pattern is the answer.

R	O	U	N
15	27	22	28
	S	T	P
	12	24	10
E	H		
18	21		
	W	M	
	14	30	
M	O	T	H
30	27	24	21
		E	R
		18	15

You may use
the number
line to work it.
