## Bingo template

- Print the bingo chart or copy on a piece of cardboard.
- Work out the questions on the task cards.
- Put a coin/cap on each of the answers you manage to get.

1. Double 3c is equal to **6c**.

2. Paul has a 10c coin. He buys a pencil which costs 6c. What change does he get? **4c**.

7. Amy says that in Box A there is less money than in Box B. Is it true?

Box A

**No.**

Box B

8. I have these coins. Can I share them equally between my two brothers? **Yes.**

9. Sam has 16c. He wants to buy a set of stickers which cost 24c. How much more money does he need? **8c.**

You can create a coin bingo with questions of your own... create a set of questions, write the answers on the bingo sheet and work out each question. You can also play in pairs and the winner is the one who covers the most answers.
