

Building and Using a Geoboard! Year 1 and 2

Part 2

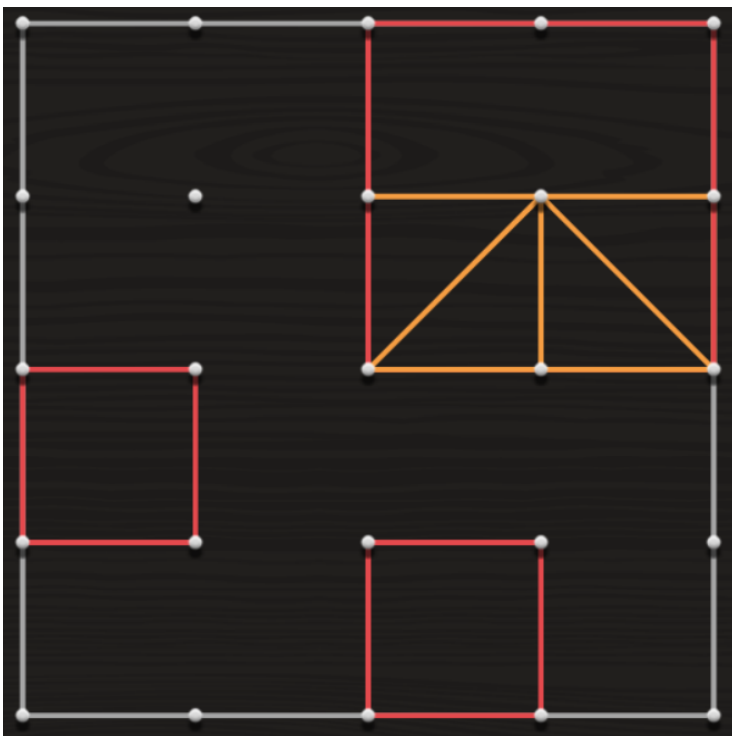

Tom created a picture of a house.

He uses one triangle and two rectangles to make the house.

Task 5

Create a different house.

How many squares, rectangles and triangles do you use?

This is my house.

It has one door, one window and a balcony.

I used a 1 big square for the house.

I used 2 small squares for the window and door.

I used another medium square for the balcony and 4 triangles for the balcony rail.

4 squares

4 triangles

0 rectangles

TASK 6 Create

Create another picture of your choice on your geoboard.

Use different shapes.

Describe your picture.

How many squares?

How many rectangles?

How many triangles?

How many shapes altogether?

Various answers.
