

Kitchen Facts!

Read the below statements.

Discuss these statements with your family members and sort them in 3 lists:

always true

sometimes true

never true

755 g is more than 1 kg.	4 packets for €1.60 is the same value per packet as 3 for €1.20.
Kitchen cupboards open clockwise.	You get more oranges than apples in a 1 kg net.
The freezer temperature is less than 0° C (zero degrees Celsius).	You save more money in a 20% OFF of any price than in a 15% OFF of any price.
100 g of dried rice weighs more when cooked.	All products come in different sizes. Buying the bigger one saves money.
200 ml of oil is heavier than 200 ml of water.	Jars and bottle caps open anticlockwise and close clockwise.
1 L of water takes longer to boil than ½ L of water.	Boiled rice takes longer to cook than boiled pasta.
It takes me 45 minutes to bake a cake from the time I switch on the oven till I switch it off. It takes me double the time to bake two of the same cake.	There are 4 members in my family. We share a packet of ½ kg of pasta equally amongst us. This means each member gets ¼ of a kg.
