

# Fill in Data

Colour a box for every shape and fill in the total.

Shape	Sort out these shapes.							Total
 triangle								
 square								
 rectangle								

Which shape has the **most** coloured boxes? **triangle**

Which shape has the **least** coloured boxes?  
**Both the square and rectangle has 3 shapes each.**

What is the **total** number of shapes? **11**  
How did you get your answer? **Counted shapes at the top, counted coloured squares or added the 3 totals in the last column.**
