

Broad Beans Challenge!

PART 1

1. Estimate the number of broad bean pods in the picture below.

2. In the picture below there are 350 beans.
Round 350 to the nearest hundred.

3. Below you can find the broad bean soup recipe for 1 person.

| |
|-----------------------------|
| 1 person |
| 10 broad beans |
| 1 potato |
| 1 marrow |
| 2 cloves |
| 300ml water |
| $\frac{1}{2}$ teaspoon salt |

Luke has the following amount of ingredients at home:

| |
|-------------------------------|
| 85 broad beans |
| 7 potatoes |
| 7 marrows |
| 12 cloves |
| 2000ml water |
| $2\frac{1}{2}$ teaspoons salt |

What is the **maximum** number of people that can eat from this recipe?

Eat healthy, stay safe!
