

Along and Across

Use the first grid shown to help you.

23	77	100
66	34	100
89	111	200

12	
	42

46	
	35

62	
	58

Draw each grid and fill in the missing numbers.

Each row should add up to 100.

Add the numbers in the columns.

Finally add the totals along the bottom, and then the totals down the side.

What do you notice?

Make up two grids of your own.
