

Primary Mathematics Guidelines Scholastic Year 2020 - 2021

The Primary Maths Support Team (DLAP – MEDE) has reviewed the [Learning Outcomes Framework](#) and the [Primary Mathematics Syllabus](#). All team members have evaluated each learning outcome in these documents from Years 1 to 6. All learning outcomes were then organised in three main categories as indicated in the table below.

	Learning Outcomes highlighted in blue are to be given priority over all other learning outcomes since these are the basic learning outcomes at that particular level.
	Learning Outcomes highlighted in orange are to be treated as second priority, hence covered once basic learning outcomes have been tackled.
	Learning Outcomes highlighted in green are only to be covered if there is enough time to do so. These outcomes will not be assessed in case of Summative Annual Examinations in 2021.

Links to Reviewed Documents for Scholastic Year 2020 – 2021

Years 1 and 2	Reviewed Primary Maths Syllabus
Year 3	Reviewed Learning Outcomes Framework (LoF)
Year 4	Reviewed Learning Outcomes Framework (LoF)
Year 5	Reviewed Primary Maths Syllabus (and aligned to LoF)
Year 6	Reviewed Primary Maths Syllabus (and aligned to LoF)

Mathematics Resources

The poster below highlights initiatives which were developed by the Primary Maths Support Team during the schools' lockdown period, which educators may find useful too.

WACKY WEEKLY QUIZZES

Through these quizzes students can revise the main Mathematics concepts [aligned to the Learning Outcomes Framework and the Primary Mathematics Syllabus].

We have uploaded a quiz for every topic in the Maths Syllabus (Years 5 and 6) and in the Learning Outcomes Framework (Years 3 and 4). There are also 13 Quizzes on Pop Topics through which students can still revise Mathematics concepts..

Initiatives by the
Primary Maths Support Team
during COVID-19 lockdown.

kikkra MATEMATIKA mid-dar

kikkra MATEMATIKA mid-dar is a series of videos which the Primary Maths Support Team is producing during COVID19 period. The aim is to share ideas and practical tips with parents supporting their children (in Primary) with Mathematics at home.

The programme is in Maltese, with subtitles in English.

Little BIG MATHS TALK

little BIG MATHS TALK invites students in Primary to become Mathematics Journalist, by producing their feature clips about any Mathematics topic or concept they like.

https://www.youtube.com/channel/UCoODFhQ1ka_cunDApISmgLsQ

ftit KULJUM
matematika għal kulhadd

ftit KULJUM tasks have become so, so, so popular... 300 tasks at different levels, covering from Years 1 to Year 6. All tasks can be carried out at home, with resources we have. Tasks can also be explored in class.

<https://primarymaths.skola.edu.mt/ftit-kulium/>

teleskola.mt

Our aim is to have a lesson/activity for each and every Learning Outcome in the Primary Mathematics Syllabus from Years 1 to 6. We are almost there!
